

# Printing ALeP Packs using MakePlayingCards

A Long-extended Party (ALeP) provides two ways to print out the packs as they are released using MakePlayingCards (MPC): using links to existing MPC projects, and using 7z files. We recommend using links to MPC projects if you want to print a pack without any modifications, but it is possible to customize the pack manually using the provided 7z files, which you can use to create your own MPC project link to share with others.

All MPC project links and 7z files can be found at <https://www.alongextendedparty.com>.

## Signing In

1. Open <http://www.makeplayingcards.com>.
2. Select **Sign In**.

3. Enter the email address and password associated with your MakePlayingCards account.
  - If you don't have an account, you can choose to either **Register**, **Login with Facebook**, or **Sign in with Google**, and follow the on screen prompts to set up an account.
4. Select **Login**.

## Using Links to MakePlayingCards Projects

There is a bug on MakePlayingCards web-site that makes impossible ordering two decks within the same browser session. If you want to order several decks you need either to restart the browser after adding each new deck or to open a private window, add a deck, close the private window, open a new private window, add a new deck, etc. You can't add two decks in parallel, even in different private windows.

1. Sign in to your MakePlayingCards account (see [Signing In](#) for details).
2. Open the desired ALeP project link. You should see a screen with the front images for the deck.
3. Don't change anything on the screen and click **Next Step**.

4. Don't change anything, just click **Next Step** on each screen until you reach **Preview & Add to Cart**.

5. Review the front and back sides of all cards in the preview area.
6. Scroll down to the bottom of the page, select the **Yes, I confirm that all the images...** checkbox and click **Add to Cart**.

Please review your design carefully before finalizing your order as it will be printed without any additional editing by our team.

Please confirm the following:

☐ Yes, I confirm that all the images, names and other content added onto my design are correct and I that I own all copyrights for them or have full authorization to use them.

Update to Saved Projects

Add to Cart

7. Enter the desired number of packs in the **Quantity** field and select **Update**.

You have 1 item(s) in your shopping cart

Item#	Description	Quantity	Price	Total
 PC100326-13 <a href="#">Options</a> <a href="#">Edit</a>	<b>Design Your Own Game Cards (63.5 x 88.9mm)</b> Playing Cards Size 2.5"x3.5" (63.5x89mm) (198 cards) Card stock: (S33) Superior Smooth Card finishing: MPC game card finish <b>CHANGE</b> Packaging: Plain white tuck box With Shrink-wrapped Project Name: [Children of Eorl] Last modified 2021/02/25 23:46:26 (PST)	<input type="text" value="1"/> <b>Update</b> <a href="#">Bulk discount</a> <a href="#">Delete</a> <a href="#">Remove to my projects</a> <a href="#">Sell this design</a>	\$46.90	\$46.90

8. Select **CHANGE** next to the printing options. (Optional)
  - This is only necessary if you would like to change the card stock option of the project. If you're satisfied with the current card stock option, skip to step 9.

9. Choose one of the following options in the **Card stock** dropdown:

- **(S30) Standard Smooth:** slightly cheaper, moderate quality
- **(S33) Superior Smooth:** highly recommended, slightly more expensive, higher quality

10. Select **Update**. Alternatively, you can select **Close** without changing any of the printing options.

The screenshot shows a web interface for designing cards. At the top, there's a navigation bar with 'Edit' and 'CLOSE X' buttons. Below it, a form contains several dropdown menus: 'Options:' is set to '(S33) Superior Smooth', 'Booklet:' is set to 'None', 'Print type:' is set to 'Full color print', and 'Finish:' is set to 'MPC game card finish'. The 'Update' button is highlighted with a red box. Below the form, there's a preview area showing multiple card designs from different angles (Front, Back, Top edge, Bottom edge, Left edge, Right edge).

11. Select the blue packaging option next to “Packaging”. In the example below, the current packaging option is **Plain white tuck box**, but your project’s packaging option might be different. (Optional)

- This is only necessary if you would like to change the **Packaging** and/or **Wrapping** of the project. If you’re satisfied with the current **Packaging** and **Wrapping** options, skip to step 12.

You have 1 item(s) in your shopping cart

Item#	Description	Quantity	Price	Total
 PC100326-13 <a href="#">Options</a> <a href="#">Edit</a>	<b>Design Your Own Game Cards (63.5 x 88.9mm) Playing Cards</b> Size 2.5"x3.5" (63.5x89mm) (198 cards) Card stock: (S33) Superior Smooth Card finishing: MPC game card finish <a href="#">CHANGE</a> Packaging: <b>Plain white tuck box</b> With Shrink-wrapped Project Name: [Children of Eorl] Last modified 2021/02/25 23:46:26 (PST)	<input type="text" value="1"/> <a href="#">Update</a> <a href="#">Bulk discount</a> <a href="#">Delete</a> <a href="#">Remove to my projects</a> <a href="#">Sell this design</a>	\$46.90	\$46.90

12. Change the **Packaging** and/or **Wrapping** options as needed.

- Note that the **Wrapping** option is only present while certain **Packaging** options are selected, and that you are required to upload your own files for some of the **Packaging** options.

The screenshot shows a web interface for selecting packaging and wrapping options. At the top, there's a navigation bar with 'CLOSE X' button. Below it, a form contains two dropdown menus: 'Packaging:' is set to 'Plain white tuck box' and 'Wrapping:' is set to 'Shrink-wrapped'. The 'Save' button is highlighted with a red box. Below the form, there's a 3D rendering of a white tuck box.

13. Select **Save**. Alternatively, you can select **Close** without changing the **Packaging** or **Wrapping** options.

14. Select **Go to Checkout**.

## Customizing the ALeP Pack

If you want to customize the ALeP pack, you can download the image files and modify the pack directly. For example, you may want to combine several packs together or add additional copies of player cards.

Note that in order to open an ALeP 7z archive, you will need to have a program installed on your computer that allows you to extract 7z files. If your computer does not have a program to extract 7z files, follow the steps provided in this link to install an open source freeware depending on your operating system (Windows, Mac, or Linux): <http://www.e7z.org/open-7z.htm>.

## Modify the MakePlayingCards Archive

1. Download the MakePlayingCards **7z** archive from the ALeP website.
  - **Make sure that the archive's name starts with "MPC".**
2. Extract the files from the archive to a folder on your computer.
  - The archive should contain two folders: **front** and **back**.
3. Modify the files in the **front** and **back** folders as needed.
  - **When you modify the number of cards in either the front or back folder, make sure that the other folder's images are also updated. The number of files in the front folder should equal the number of files in the back folder. For example, if you add a player card, ensure that you add both the front and back image for that player card.**
  - **When adding cards to your pack, ensure that all images are in RGB PNG format and are 3.74 in x 2.74 in.**

## Set Card Printing Options

1. Sign in to your MakePlayingCards account (see [Signing In](#) for details).
2. Open <https://www.makeplayingcards.com/design/custom-blank-card-traditional-size.html>.
3. Set the following options in the **Design Your Own Game Cards (63.5 x 88.9mm)** menu:
  - **Card stock:** select one of the following options:
    - **(S30) Standard Smooth:** slightly cheaper, moderate quality
    - **(S33) Superior Smooth:** highly recommended, slightly more expensive, higher quality
  - **Size of deck:** select the number of cards in your customized pack.
    - For deluxe expansions, it's **Up to 198 cards**. For other sets, it's **Up to 72 cards**.
    - This value might vary based on how you customized the pack.
  - **Print type:** Full color print
  - **Finish:** MPC game card finish
  - **Packaging:** Any option
  - **Wrapping:** Any option
  - **Booklets:** None

4. Select **start your design**.

## Upload Front Images

1. Select **Different** images.

Step 1:

Enter number of cards for your deck (max. 198)

[Change](#)

Packaging:

Step 2:

Choose what you want to put on **card fronts**:

Image & Text

Same image

Different images

Same for all fronts\*

Different for all fronts

(No Image) Color Background & Text

Same message

Different message

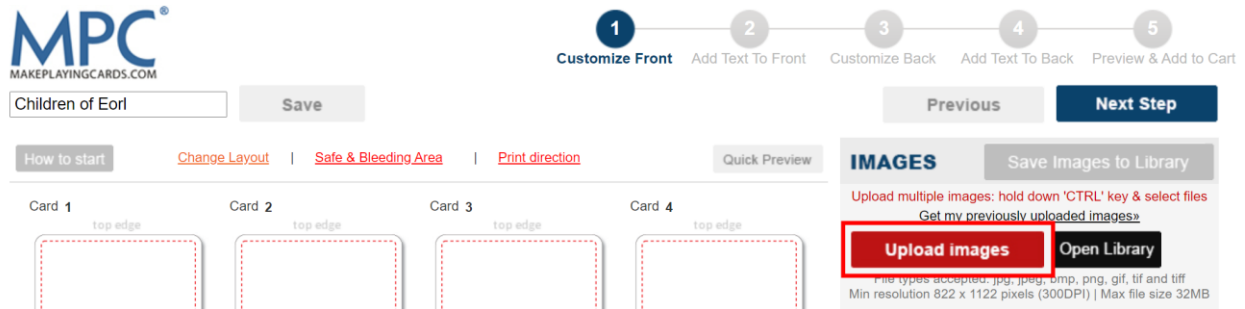

Same message for all fronts\*

Different message for all fronts

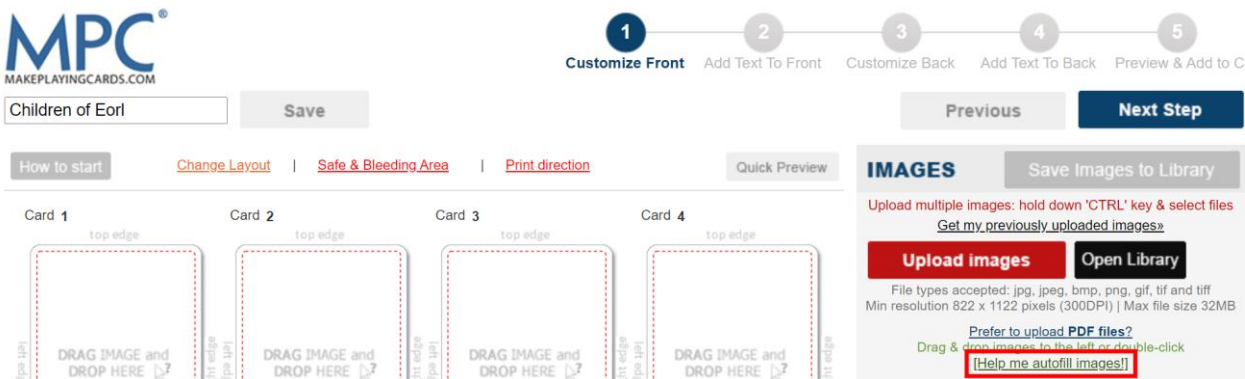

\*Note: Only one card is shown for design if you choose 'same image' or 'same message'

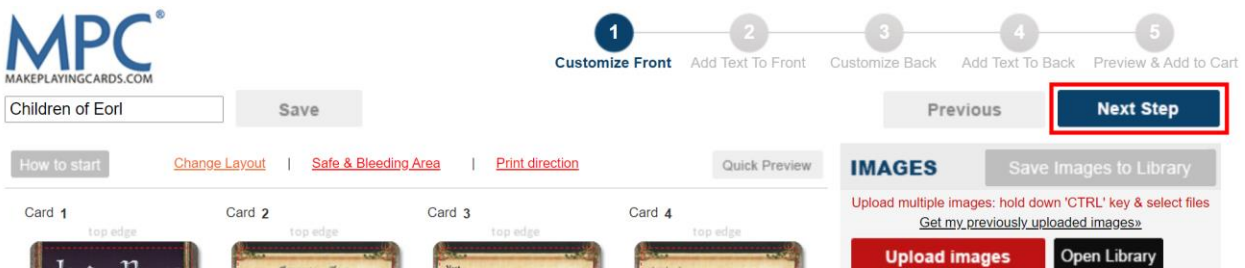

2. Select **Upload images**.

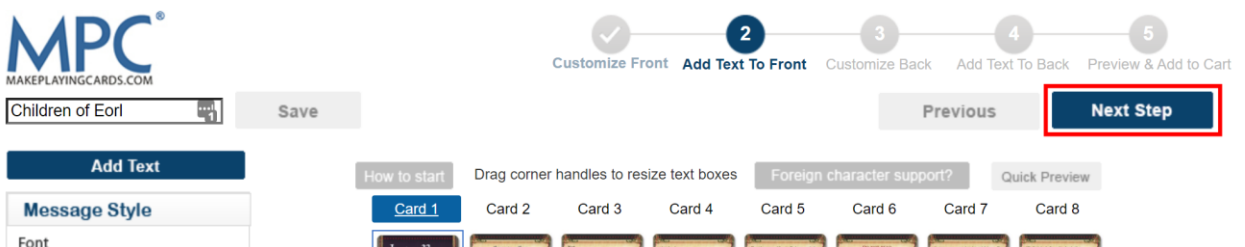

3. Navigate to your **front** folder (where you extracted the 7z archive in the [Modify the MakePlayingCards Archive](#) section).
4. Select all image files in the **front** folder.
5. Select **Open**.
6. Wait until all images have been uploaded.
  - Note that this might take a while depending on your Internet connection speed.
7. Select **Help me autofill images!**

8. Wait until all images have been placed into the preview area on the left.
9. Select **Next Step**.

10. Select **Next Step**.

## Upload Back Images

1. Select **Different images**.

### Step 3:

Number of cards (max. 55)

[CLOSE]

### Step 4:

Choose what you want to put on **card backs**:

Image & Text	(No Image) Color Background & Text
<input type="button" value="Same image"/> Same for all backs*	<input type="button" value="Same message"/> Same message for all backs*
<input checked="" type="button" value="Different images"/> Different for all backs	<input type="button" value="Different message"/> Different message for all backs

\*Note: Only one card is shown for design if you choose 'same image' or 'same message'

2. Select **Upload Images**.

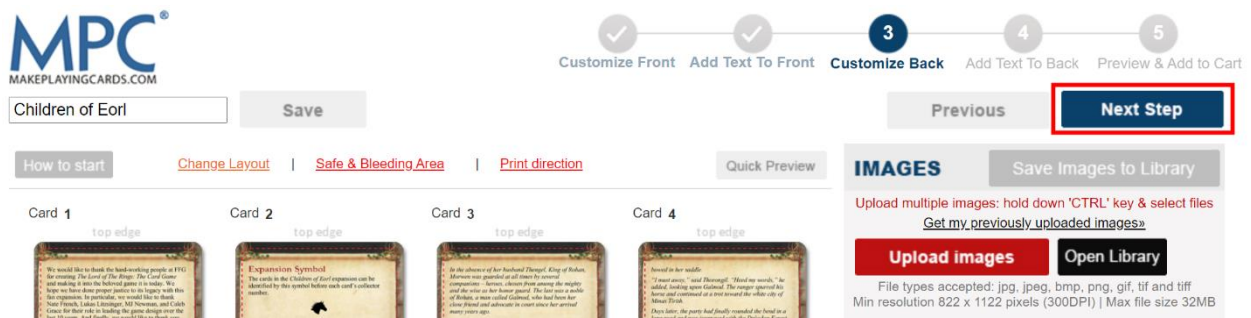

The screenshot shows the MPC MakePlayingCards.com interface. At the top, there's a progress bar with five steps: 1. Customize Front, 2. Add Text To Front, 3. Customize Back (active), 4. Add Text To Back, and 5. Preview & Add to Cart. Below the progress bar, there's a 'Save' button and a 'Previous' button. The main area shows four card templates (Card 1 to Card 4) with 'top edge' labels. To the right, there's an 'IMAGES' section with a 'Save Images to Library' button. Below that, there's a red box around the 'Upload images' button and a 'Get my previously uploaded images' link. Below the 'Upload images' button, there's a list of file types accepted: jpg, jpeg, bmp, png, gif, tif and tiff. Below that, there's a note: 'Min resolution 822 x 1122 pixels (300DPI) | Max file size 32MB'. At the bottom, there's a 'Drag & drop images to the left or double-click' instruction and a red box around the text '(Help me autofill images!)'.

3. Navigate to your **back** folder (where you extracted the 7z archive in the [Modify the MakePlayingCards Archive](#) section).
4. Select all image files in the **back** folder.
5. Select **Open**.
6. Wait until all images have been uploaded.
  - Note that this might take a while depending on your Internet connection speed.
7. Select **Help me autofill images!**

This screenshot is similar to the previous one, showing the MPC MakePlayingCards.com interface. The 'Upload images' button is still highlighted with a red box. However, the 'Help me autofill images!' button at the bottom right is now highlighted with a red box. The rest of the interface, including the progress bar, card templates, and file type information, remains the same.

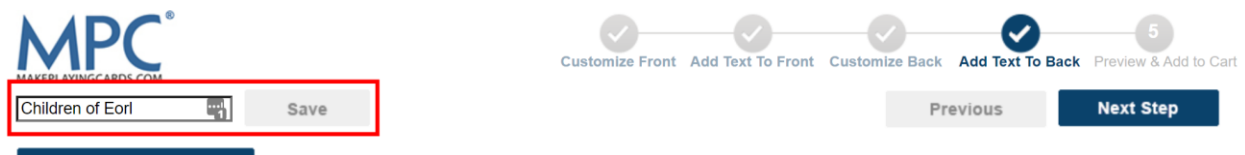

8. Wait until all images have been placed into the preview area on the left.
9. Select **Next Step**.

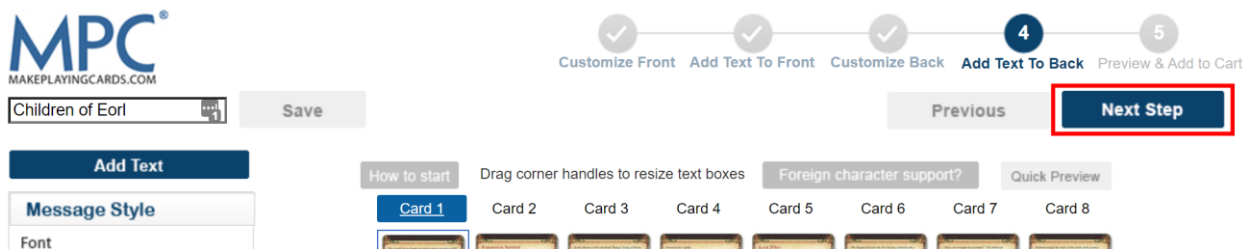

10. Enter a project name in the input field in the top left corner of the screen. (Optional)
  - This is only necessary if you would like to create a MakePlayingCards project link to share with others (see [Creating a MakePlayingCards Project Link](#) for details). If you do not want to save your deck as a saved project, skip to step 12.

**Note that when you are saving your deck as a MakePlayingCards project, do NOT include “Lord of the Rings,” “LOTR,” or any other mention of the Lord of the Rings franchise in the project name. Doing so might get your project flagged by MPC, resulting in them not printing your project.**

11. Select **Save**.
  - The text **Saving your design...** will appear and display **Saved Successfully** when it has finished saving your project. Note that this might take some time depending on the size of your project.

12. Select **Next Step**.

## Checkout and Complete Order

1. Review the front and back sides of all cards in the preview area.
2. Scroll down to the bottom of the page and select the **Yes, I confirm that all the images...** checkbox.
3. Select **Add to Cart**.

Please review your design carefully before finalizing your order as it will be printed without any additional editing by our team.

Please confirm the following:

☐ Yes, I confirm that all the images, names and other content added onto my design are correct and I that I own all copyrights for them or have full authorization to use them.

Update to Saved Projects

Add to Cart

4. Select **Remove to my projects**. (Optional)
  - This is only necessary if you would like to create a MakePlayingCards project link to share with others (see [Creating a MakePlayingCards Project Link](#) for details). If you do not want to save your deck as a saved project, skip to step 8.
  - Note that you do not have to select this option if you have already saved your latest changes to your deck in steps 10 and 11 in the [Upload Back Images](#) section.
  - **Note that this is the last opportunity to save your deck as a project before placing your order. Once you place your order, you must use the [Reordering Your Deck](#) method to save your deck as a project.**

**Note that when you are saving your deck as a MakePlayingCards project, do NOT include “Lord of the Rings,” “LOTR,” or any other mention of the Lord of the Rings franchise in the project name. Doing so might get your project flagged by MPC, resulting in them not printing your project.**

## Saving Your Deck as a MakePlayingCards Project

There are multiple ways to save your customized pack as a saved project, which you can edit at a later time and create a link to share with others (see [Creating a MakePlayingCards Project Link](#) for details). There are three methods of saving your pack:

1. Editing your deck
2. Removing the deck from your cart
3. Reordering your deck

**Note that when you are saving your deck as a MakePlayingCards project, do NOT include “Lord of the Rings,” “LOTR,” or any other mention of the Lord of the Rings franchise in the project name. Doing so might get your project flagged by MPC, resulting in them not printing your project.**

You can see a list of all of your saved projects by selecting **Saved projects**.

## Editing Your Deck

You can save your deck when you are finished editing your deck in the editor (see step 10 in [Upload Back Images](#) for details).

To save your deck in the editor:

1. Upload your front images to your deck (see [Upload Front Images](#) for details).
2. Upload your back images to your deck (see [Upload Back Images](#) for details).
3. Enter a project name in the input field in the top left corner of the screen.
4. Select **Save**.
  - The text **Saving your design...** will appear and display **Saved Successfully** when it has finished saving your project. Note that this might take some time depending on the size of your project.

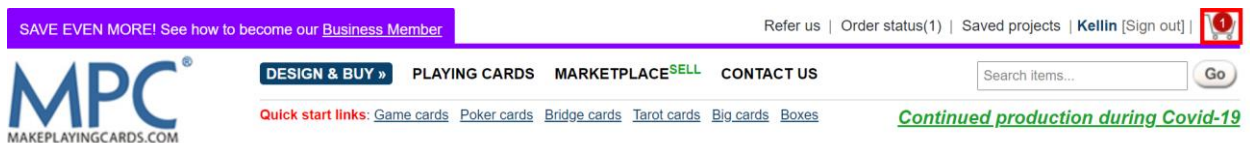

## Removing the Deck From Your Cart

Another way of saving your deck as a project is removing it from your cart before submitting your order (see [Checkout and Complete Order](#) for details).

To remove your deck from your cart:

1. Select the **Cart** icon.

2. Locate the deck that you would like to save.
3. Select **Remove to my projects** in that deck's listing.

You have 1 item(s) in your shopping cart

Item#	Description	Quantity	Price	Total
PC100326-13 <a href="#">Options</a> <a href="#">Edit</a>	<b>Design Your Own Game Cards (63.5 x 88.9mm)</b> Playing Cards Size 2.5"x3.5" (63.5x89mm) (198 cards) Card stock: (S33) Superior Smooth Card finishing: MPC game card finish <b>CHANGE</b> Packaging: Plain white tuck box With <a href="#">Shrink-wrapped</a> Project Name: [Children of Eorl] <a href="#">Last modified 2021/02/25 23:46:26 (PST)</a>	<input type="text" value="1"/> <a href="#">Update</a> <a href="#">Bulk discount</a> <a href="#">Delete</a> <b><a href="#">Remove to my projects</a></b> <a href="#">Sell this design</a>	\$46.90	\$46.90

4. Select **OK** in the browser prompt to verify you want to remove your deck from your cart. You should be redirected to your **Saved projects** page where you will see all of your saved projects.

## Reordering Your Deck

The last way of saving your deck as a project is by reordering your deck. **Once you place an order, you no longer have the option to save it as a project except by reordering your deck.**

To reorder your deck:

1. Select **Order status**.

2. Find the order that included your deck.
3. Select **reorder**.

My orders		Incomplete	Canceled	Search		
Order No.	Tracking No.	Name	Total Price	Status	Date	Reorder

Click on your tracking number (if any) to see the delivery status of your order.

4. Select **Submit**.

Select All Counter Selection Deselect All			CLOSE X		
Select	Item#	Product Name	Unit Price	Quantity	Total
<input checked="" type="checkbox"/>	 PC100326-13	Design Your Own Game Cards (63.5 x 88.9mm) 421.00 2.5"x3.5" (63.5x89mm)(198pcs)	\$46.90	1	\$46.90

Products (Total:1)

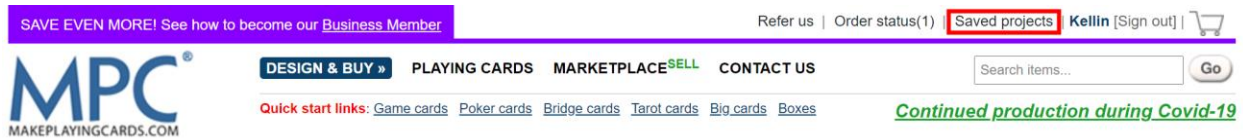

5. Select **OK** in the browser prompt to verify that you want to add your order back into your cart.
6. Follow the steps in [Removing the Deck From Your Cart](#) to finish saving your deck as a project.

# Creating a MakePlayingCards Project Link

Once you save your deck as a MakePlayingCards project, you can create a project link to share with others (see [Using Links to MakePlayingCards Projects](#) for details). Note that users must be signed into a MPC account to view your project link.

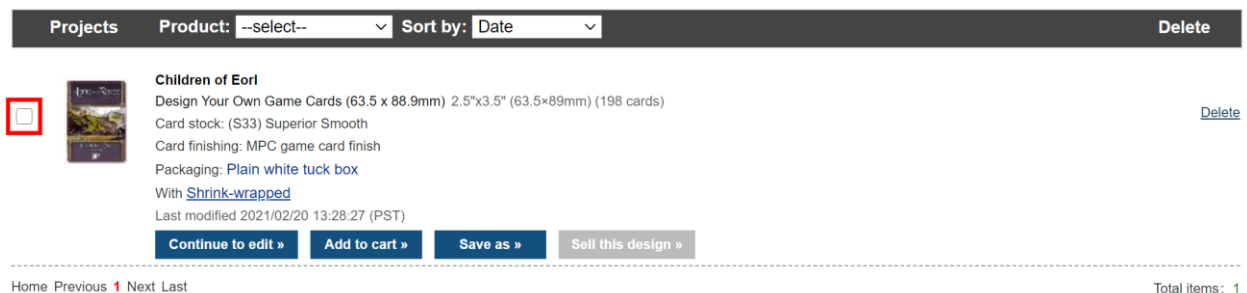

1. Sign in to your MakePlayingCards account (see [Signing In](#) for details).
2. Select **Saved projects**.

3. Find the deck under **My saved projects** (see [Saving Your Deck as a MakePlayingCards Project](#) for details on how to save your deck).
4. Right-click the checkbox to the left of the deck.

## My saved projects (Total 1 items)

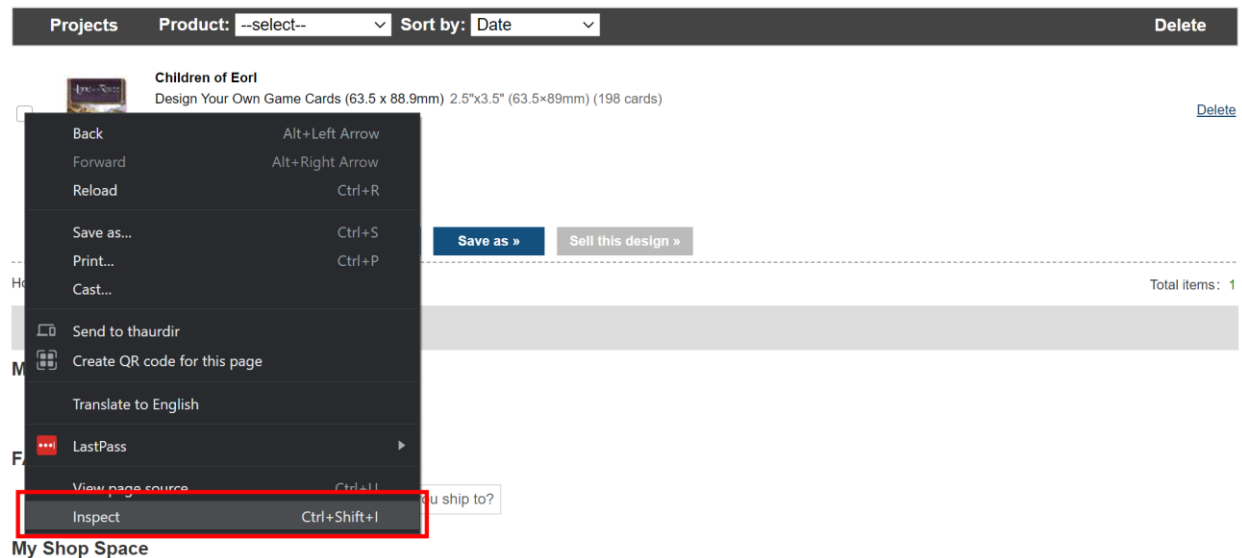

Continue working on your projects where you left off last time by clicking on the continue buttons below:

5. Select **Inspect** (on Google Chrome) or **Inspect Element** (on Firefox, Safari, and Microsoft Edge).
  - a. You should see the source code of the web page with the line of code for the checkbox highlighted.

## My saved projects (Total 1 items)

Continue working on your projects where you left off last time by clicking on the continue buttons below:

6. Copy the ID of the input element **without** the “chk\_” prefix.

```
<div class="bmiddlebox">
  <div class="bmbox">
    <div class="bmcheckbox">
      <input id="chk_CF6A51864C46D71EBABF87DF86CFABC7BC53E6A109BF9C096800F080B72BC2018DC99CBBE194A870" type="checkbox"> == $0
    </div>
  </div>
</div>
<div class="bmlbox">...</div>
<div class="bmrbox">...</div>
```

7. Create your URL using the following format:

[https://www.makeplayingcards.com/design/dn\\_temporary\\_parse.aspx?id=<your long ID>](https://www.makeplayingcards.com/design/dn_temporary_parse.aspx?id=<your long ID>)

For example, the project link for the above project is:

[https://www.makeplayingcards.com/products/playingcard/design/dn\\_playingcards\\_front\\_dynamic.aspx?id=CF6A51864C46D71EBABF87DF86CFABC7BC53E6A109BF9C096800F080B72BC2018DC99CBBE194A870](https://www.makeplayingcards.com/products/playingcard/design/dn_playingcards_front_dynamic.aspx?id=CF6A51864C46D71EBABF87DF86CFABC7BC53E6A109BF9C096800F080B72BC2018DC99CBBE194A870)

## What to do if MakePlayingCards Rejects Your Order

If you receive an email from MakePlayingCards that they can't print your order because of copyright issues, try to answer them with the following:

*Hello,*

*Thanks for your message.*

*All cards below are NOT copyrighted images. It's a fan-made extension to The Lord of the Rings Living Card Game (LCG) and it fully complies with "Guidelines For Community Use" released by Fantasy Flight Games/Asmodee North America (see [https://images-cdn.fantasyflightgames.com/filer\\_public/fa/b1/fab15a15-94a6-404c-ab86-6a3b0e77a7a0/ip\\_policy\\_031419\\_final\\_v21.pdf](https://images-cdn.fantasyflightgames.com/filer_public/fa/b1/fab15a15-94a6-404c-ab86-6a3b0e77a7a0/ip_policy_031419_final_v21.pdf)). In short, Fantasy Flight Games encourages people to create fan-made content, as long as it's not for sale and either made for personal use or freely shared with the community.*

*I'm going to print the cards for personal use only and not for resale.*

*Thank you!*

If your order is still rejected, cancel it and try to place it again (hopefully, it will reach a different MakePlayingCards employee).
